DID YOU READ THE DISCLAIMER TO THE CUSTOMER & DID THEY UNDERSTAND THE PROCESS OF THE AUTHORIZATION?    YES    NO

PLACEMENT LOCATION? \_\_\_\_\_

## ORDER FORM

### **DISCLAIMER:**

On the day you call the dumpster in for pick up, we do a preauthorization on your credit card for any over weights that may incur. **If** the dumpster goes over weight, we use the pre-authorization code to retrieve the funds for the overweight charge. First, we will give you a call, we'll email you a marked paid invoice, as well as a copy of the scale ticket, provided by the facility we take your trash to.

If the dumpster does **NOT** go over weight, this pre-authorization code will fall off on its own. Every bank is different so there's no way of telling how long it will take your bank to do so.

This is **NOT** an additional charge, it is just a pre-authorization. It will be in your pending file and will remain there, unless you are using a debit card where it **WILL** affect your balance.

**\*\*Please be aware the weight of a roll off truck is about 35,000 pounds and an empty roll off container is approximately 4,000 pounds, without any items added into the dumpster. Hometown Waste is NOT responsible for any asphalt SLASH driveway surfaces\*\***
